

Medicare Reference-Based Pricing Plan for Hospitals and Dialysis Centers

OSMA Health does not use a Preferred Provider Organization (PPO) Network for hospitals and dialysis centers. You can go to any hospital or dialysis center you so choose and receive full plan benefits.

Medicare Reference-Based Incentive Pricing – The plan reimburses hospitals and dialysis centers at an amount greater than Medicare. Most hospitals and dialysis centers routinely accept Medicare pricing. This Plan offers several efficiencies and benefits, such as:

- Payment greater than Medicare
- No access restrictions to hospitals or dialysis centers
- Payments are predictable, fast and accurate
- Access to a Patient Advocate for support and guidance for you and your hospital or dialysis center providers
- Post service notification requirement for certain services

Please contact OSMA Health at 1-888-244-5096 for further information.
